

HOW TO DOWNLOAD ZOOM ON A MOBILE

These below steps are shown on an Android Phone.

To download and install the Zoom Application:

1. On your mobile go to <https://zoom.us/download> and from the Download Center, *click* on '**Zoom Mobile Apps**' and click to either download on iOS or Android.

Zoom Mobile Apps

Start, join and schedule meetings; send group text, images and push-to-talk messages on mobile devices.

Download in App Store Download in Google Play

Zoom Client Plugin for Sharing iPhone/iPad

The Zoom client plugin will be automatically installed when you try to share your iPhone/iPad screen to remote meeting participants during your Zoom meeting time.

Download Version 4.6.8 (19178.0323) Help

2. Once you're taken to your app store press **download** to download the app to your phone.
3. When you open the app you will be asked whether you want to join a meeting (this requires no sign up all you need is the other persons **meeting ID** - ask the person you're video calling to give you their meeting ID)

- To start your own meetings you will need to **Sign up** or **Sign in**. If it's the first time using the app you can sign up with Zoom or Sign in via **Facebook** or **Google Mail**.
- Once signed in if you want to start your own meeting you can click '**New meeting**'
- Then you can add participants to join a video chat with you.

- Then press invite.

8. Once you've clicked invite you can then invite your friends via facebook, google mail or you can copy the URL and send it to them in a text message or whatsapp.

Please help us to all stay connected by passing this info onto all friends and family, take a photo and share through your mobiles or emails.
